

## The World's First Portable Satellite TV System in a Dome!

### Advantages over other portable dishes:

- Simple, one-person operation with wireless remote from inside RV
- Automatic leveling
- Dome prevents wind from knocking dish out of alignment
- Digital display of elevation & azimuth
- Store & recall 2 different satellites

### Who will buy a VuQube?

- Cost conscious travel trailer owners
- Existing mobile satellite system owners looking for a simple to use portable system when parked in trees
- Tailgaters and NASCAR campers
- DIRECTV customers interested in the SAT-GO system but who don't want to pay the \$1,599 retail price
- Cabin owners
- Long haul truck drivers
- Owners of ice fishing houses

### Just 3 simple steps to digital quality satellite TV reception!

- Connect
- Tilt
- Turn
